

10" Compact Interactive Whiteboard

Intuitive and Interactive Learning Experience

Professional Edition: W10T200-HWH1NX (With NXBoard Software)

10" Compact Interactive Whiteboard integrates 10" LCD display with writing pad technology, which is a bundle solution for teaching environment. You can instantly present, through second display, what you just wrote on the digital writing board. You can easily make marks and comments on digital files which enable you to interact with your students as well as improve your teaching quality, renewing the traditional teach methods. Furthermore, the compact and slim design is only 15 mm, decreasing the load of your hand holding the.

Assistant Teaching Tool

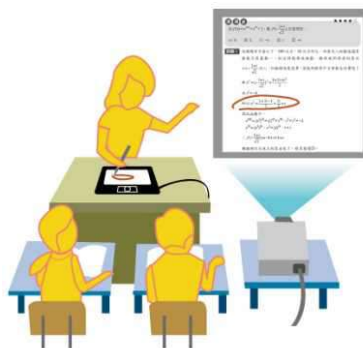

Creative Learning by Touch

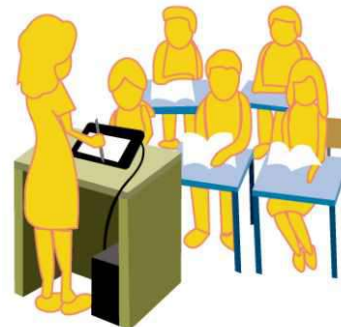

Presentation

Educative Application

1. Making marks and comments directly on the 10" Compact Interactive Whiteboard capturing students' attention

2. The slim and compact design allows teacher to place the 10" Compact Interactive Whiteboard on the desk. Teacher can clearly oversee students' learn

Features

Intuitive Operation

Different from other products in the market, 10" Compact Interactive Whiteboard is embedded with 10" widescreen display that is user friendly and requires no practice before operating.

Slim and light Design 15mm Ultra-slim design allows you to work directly on the 10" Compact Interactive Whiteboard, easy as writing on a paper.

Ergonomic Design

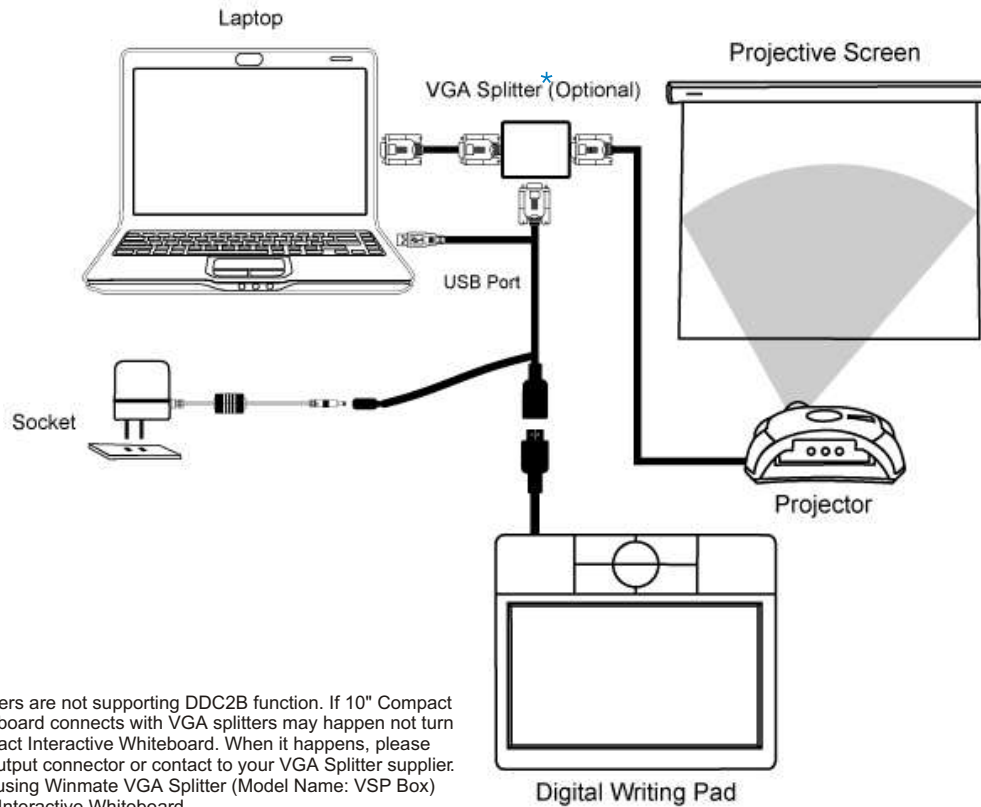

Taking the place of traditional mouse, the writing stylus efficiently reduces injuries caused by using mouse constantly. Through the second display you can also show the content simultaneously while you are teaching and writing.

Multi-functional

The functions of Zoom in/out are built in on the touch pad and 4 hot tabs.

Operation Diagram

* Some VGA Splitters are not supporting DDC2B function. If 10" Compact Interactive Whiteboard connects with VGA splitters may happen not turn on the 10" Compact Interactive Whiteboard. When it happens, please use other VGA output connector or contact to your VGA Splitter supplier. We recommend using Winmate VGA Splitter (Model Name: VSP Box) for 10" Compact Interactive Whiteboard.
