

# IQWB-OPS PC Pluggable Module

-Based on Intel Open Pluggable Specifications(OPS)

**Introduction:**

- IQWB is based on the Intel® Core i7 processor with Mobile Intel® 5 Series Express Chipset(QM57) platform and also future products. The Pluggable Module is targeted to provide an interchangeable solution to digital signage media players with compatible connector.

## System Specification

- Processor : Intel® Core™ i5 520M(SV) (Fan)
- : Intel® Celeron® P4500 (SV) (Fan)
- BIOS : 4bit SPI Flash
- System Chipset : Mobile Intel® QM57 Express Chipset
- System Memory : 1 x 1GB SO-DIMM DDR3-1066MT/s(Max to 1 x 4GB)
- System Storage : SATA 2.5 Hard Disk(SSD for Optional)
- Graphic Chipset : Integrated Grpahics
- Ethernet : Intel 82577LM Gigabit Ethernet
- Audio : Realtek ALC codec

## I/O Connectors

- Rear External I/Os :
- 1 x Display Port
  - 2 x USB 2.0
  - 1 x LAN Port
  - Power Button
  - Line In / Line Out
  - 2 x Antenna(Optional WiFi)
  - 1 x 2.5" HDD or SSD changeable design

\* Note: this is a simplified drawing and some components are not marked in detail. Please contact our sales representative if you need further product information.

## Environmental Specification

- Construction : Aluminum housing
- Dimension : 200x30x118mm(WxHxD)
